The accounts of the Town Treasurer are correct and I find on file all necessary orders of the Selectmen for money paid out. The Tax Collector's accounts have been examined and verified by mailing notices to all delinquents.

I hereby certify that the information contained in this report is complete and correct, to the best of my knowledge and belief.

FRANCIS F. G. ANDREWS,
Town Auditor.

To the Board of Selectmen,

Mr. George A. Stedman, Chairman,
Berkley, Massachusetts,

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Berkley for the period from January 1, 1932 to November 22, 1933, made in accordance with the provisions of Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Accountant of this Division,

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

Mr. Theodore N. Waddell,

Director of Accounts,

Department of Corporations and Taxation,
State House, Boston.

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Berkley for the period from January 1, 1932 to November 22, 1933, and submit the following report thereon.

The financial transactions of the town as recorded on the books of the several departments collecting money for the town were examined and checked.

The books and accounts of the late town treasurer were examined and checked in detail. The recorded receipts were compared with the records in the several departments collecting money for the town and with the other sources from which money

had been paid into the town treasury, while the payments were checked with the warrants authorizing the treasurer to disburse town funds.

The cash book was footed, the recorded receipts were analyzed, the cash on hand was verified by an actual count and the bank balance was reconciled with a statement furnished by the bank of deposit.

Considerable, detailed checking was required in order to reconcile the treasurer's cash, it being apparent that receipts and payments had not been promptly entered on the cash book and that no periodic reconciliation had been made of the cash book balance with the amount of cash in the bank and in the office.

Contrary to the provisions of Section 52, Chapter 41, General Laws, a large number of disbursements were made without selectmen's warrants authorizing them. It is again recommended that warrants be issued by the selectmen for all payments to be made by the town treasurer, as required by the above-named statute.

The cash on hand and in the Machinists' National Bank, Taunton, on Nov. 22, 1933, amounting in the aggregate to \$1,643.40, was transferred to the new town treasurer.

The cash variation of \$177.01, as indicated on the appended table showing a reconciliation of the treasurer's cash as of November 22, 1933, was paid into the town treasury January 10, 1934, by the estate of the late treasurer.

The payments on account of debt and interest were checked with the amounts falling due in the period covered by the audit and with the canceled securities on file.

The savings bank books representing the investment of the trust funds in the custody of the town treasurer were examined and verified. It is recommended that the income from cemetery perpetual care funds be withdrawn from savings banks and recorded on the town treasurer's cash book, and that expenditures for the care of graves be made only on authority of properly approved selectmen's warrants.

An analysis of the various appropriation accounts disclosed that various accounts, amounting in the aggregate to \$1,471.25, were overdrawn on November 22, 1933. The amount of these overdrafts, together with any subsequent overdrafts up to December 31, 1933, should be appropriated by the town and raised by the assessors in the levy of 1934.

The deficit in the overlay of 1930, amounting to \$42.62, should also be raised by the assessors in the levy of 1934, as required by Section 23, Chapter 59, General Laws, as amended.

Attention is again called, in connection with the overdrawn appropriations, to Sections 31 and 32, Chapter 44, General Laws, which read as follows:

No department of any city or town, except Boston, shall incur liability in excess of the appropriation made for the use of such department, except in cases of extreme emergency involving the health or safety of persons or property, and then only by a vote in a city of two-thirds of the members of the city council, and in a town by a vote of two-thirds of the selectmen.

Any city, town or district officer who knowingly violates, or authorizes or directs

any official or employee to violate, any provision of this chapter, or any other provision of general law relating to the incurring of liability or expenditure of public funds on account of any city, town or district, or any provision of special law relating to the incurring of liability or expenditure of public funds as aforesaid, shall, except as otherwise provided, be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both; and the mayor, selectmen, prudential committee, or commissioners, shall, and five taxpayers may, report such violation to the district attorney who shall investigate and prosecute the same.

The books and accounts of the tax collector were examined and checked in detail. The commitments were proved, the recorded payments to the treasurer were checked to the treasurer's books, the abatements were compared with the assessors' record of abatements granted, and the outstanding accounts were listed and proved.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

In order that the interests of the town may be properly protected and if the collector is to perform the duties of his office faithfully, immediate action should be taken by the tax collector to close out the tax levies of 1930, 1931, and 1932, all of which are long overdue. Section 17, Chapter 60, General Laws,

requires that the collector shall collect any tax, betterment or special assessment on real estate within one year from October first in the year of the assessment, and, in the case of any other tax, within two years from said October first, together with all incidental charges and fees.

The assessors' record of abatements granted was incomplete and inaccurate, and it is again recommended that greater care be exercised in recording abatements in the official abatement book, so that a proper record of abatements granted by the assessors may be available.

The list of taxes committed to the collector of taxes for collection should be carefully added before it is committed to him, and the total of the commitment list should agree with the total amount on the warrant.

The town clerk's records of hunting and fishing and dog licenses issued were examined and checked in detail. The payments to the State and county were verified with the receipts on file, while the payments to the town treasurer were verified by a comparison with the treasurer's books.

The surety bonds furnished by the elective officials for the faithful performance of their duties were examined and found to be in proper form.

It is recommended that the report of the audit, furnished to the town clerk, or a summary of its essential features, be published as provided by Section 40, Chapter 44, General Laws.

The records of the sealer of weights and measures were examined and checked in detail, and the payments to the treasurer were verified by comparison with the treasurer's books.

Appended to this report, in addition to the balance sheet, are schedules showing a reconciliation of the treasurer's cash, summaries of the tax accounts, together with tables showing the condition and transactions of the trust funds.

For the courtesies extended during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

EDWARD H. FENTON,
Chief Accountant.

ANNUAL REPORT
OF THE
School Committee
OF THE
TOWN OF
BERKLEY

For the Year Ending December 31, 1933

SCHOOL COMMITTEE

	Term Expires
Harry J. Gaffney, Chairman, Berkley, Mass.,	1936
Myra D. Anthony, Myricks, Mass.,	1934
Arthur E. Robbins, Berkley, Mass.,	1935

Superintendent

Norman D. Bailey

Residence: 76 Spring Street, North Dighton.

Office: Grammar School Building, North Dighton,
Tel. Taunton 1146.

Office Hours: District office, North Dighton, 8-9 A.
M. on school days and by appointment.

Berkley Town Hall on the first Saturday of each
month, 2 o'clock. Office open: 8-12.00, 1-5.00
school days.

Secretary

Dorothy P. Carr

School Physician

Charles A. Briggs, M. D.

School Nurse

Mrs. Ruth Deane, R. N.

REPORT OF THE SCHOOL COMMITTEE

The School Committee recommends that the Town appropriate the sum of \$22,910.00 for school expenses for 1934.

General Control,	\$1,000.00
Teachers' Salaries,	6,900.00
Books and Supplies,	700.00
Janitor Service,	732.00
Fuel,	550.00
Miscellaneous Operation,	150.00
Repairs,	150.00
Transportation,	6,100.00
Tuition,	6,090.00
Health,	510.00
Miscellaneous,	28.00
	<hr/>
	\$22,910.00

The Headings in the above report have been changed to conform with those which are used in the State Returns.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of Berkley:

Mrs. Anthony and Gentlemen:

In writing this fourth annual report as the superintendent of schools of Berkley, I am mindful of the fact that each year has presented to all of us a new outlook on life. A year ago, a large portion of our thinking population, was near to despair in the realization that there appeared to be no way out of the economic dilemma. Today there is new hope in each heart, occasioned perhaps by the consciousness that we have begun to move in some direction. Time alone will tell whether or not our direction is right but we are spared the anguish of sitting still and waiting for the knell of doom to strike upon our civilization. In the paragraphs which follow I have attempted to present briefly some of the problems which face the Berkley Schools as well as to enumerate some of the accomplishments of the past year.

I.—IMPROVEMENT OF PROPERTY.

On Nov. 18, 1933, President Roosevelt created the Civil Works Administration to provide immediate employment for those out of work. Projects were organized, subject to the approval of the local and state authorities for this program. Much credit is due to Mr. George A. Stedman, local administrator, for cooperation and assistance in putting across the Berkley projects. No one unacquainted with the work can realize the endless amount of detail involved in the program. Since in Berkley projects all materials have been purchased by the State CWA

Purchasing Division a further amount of "red tape" has had to be surmounted. The numerous trips to Boston to straighten out details have taken time and energy. It should be recorded here that the local administrator has been ready and willing at all times to advise and assist as problems have arisen.

Projects having to do with School improvements are listed below:

1. Painting interior and exterior of Berkley School.
2. Painting interior and exterior of Myricks School. Replacing ceiling, Myricks School. Repairing outbuildings at Myricks.
3. Grading school yard at Myricks.
4. Installation of modern toilets, etc. at Berkley School including new well, septic tank, cement floor, stairs, etc.

The cash value of the improvements listed is approximately \$7,000.00. It should be remembered that much of this money has been applied to wages for those whose needs would call for assistance from the town welfare funds.

II.—TEACHING STAFF.

For the second successive year Berkley Schools opened with no change in the staff from the preceding year. This is not only a credit to our teachers but a distinct advantage to our system. Several years ago most small towns were faced with the problem of a turnover of at least 50% of the teaching staff each year. This led to disorganization and the time

spent in adjusting new teachers to the system was lost to the children.

III.—COURSE OF STUDY.

In the field of Courses of Study our attention this year has been centered upon the work in history and geography. A committee of teachers consisting of Mrs. Eleanor Smith, Miss Emily Gell, Miss Helen Lane, Mr. George Austin—Dighton, Mrs. Lucy Terry and Miss Alice Goodell—Freetown, Mrs. Millicent Hackett and Mr. Glenn Burgmann—Berkley, is doing a conscientious piece of work in this field.

IV.—COST OF SCHOOLS.

The schools of a town represent the major item of expenditure in the town's budget. No other item is as closely related to the people. The expenditure finds its justification in the development of boys and girls into worthwhile, useful citizens. Failing in this the schools have little claim for public support.

Berkley is uniquely situated as far as the financing of its educational programs concerned of the total cost approximately 66 2-3 per cent is borne by the State. For public information these reimbursements are listed below:

High School Tuition,	\$ 2,534.81
High School Transportation,	3,694.55
Supt. of Schools,	386.67
General School Fund, Part I,	3,025.00
General School Fund, Part II,	2,530.64
Vocational Education,	58.71
Tuition, State Wards,	463.91
<hr/>	
Total,	\$13,081.02

It should be borne in mind that although the reimbursements above are given the towns, are on account of expenditures for schools there money must revert to the general treasury as provided by law to reduce the tax rate. The following figures are especially significant:

Total Expenditure 1933,	\$21,559.97
Reimbursements,	13,081.02
<hr/>	
Net Cost to Town,	\$ 8,478.95

V.—BUDGET.

The 1934 budget calls for a considerable increase in appropriation. Most of this is necessitated by the increase in the number of high school pupils over which we have no control. Whether the town wishes to or not it must provide a high school education for those children that desire it. This number of pupils will increase rather than decrease with the years, due to the upward trend of the compulsory school age. It is not too much to expect that within three years this number will have increased another 25%. The increase in this item alone amounts to \$1,215.00.

School supplies and text books have increased approximately 40% since April 1, 1933. In face of this increase, we have been compelled to add \$100.00 or 16 2-3% to the budget. This means that we shall be compelled to use supplies with extreme care and that purchase of needed text books will have to be postponed.

Our Repair budget has been increased from \$150.00 to \$200.00 due to incidental expenses in connection with the CWA work.

In the teachers salary account we have restored the school year to 36 weeks which means a restoration of the 3 1-3% reduction in salaries.

VI.—CONCLUSION.

It is the perfunctory thing to bring a report to a conclusion by expressing appreciation for cooperation. That I am glad to do not only from a sense of duty but in appreciation of the fine spirit which has characterized our work this year. I would wish, however, that I could impart to every citizen of Berkeley, a knowledge of how each member of its School Committee, sincerely interested in the welfare of its boys and girls, and of how gladly these people who serve without salary or other compensation give of time and thought in the furtherance of the program of public education.

Respectfully submitted,

NORMAN D. BAILEY.

REPORT OF SUPERVISOR OF MUSIC

Supt. Norman D. Bailey,
Berkley, Mass.

My dear Mr. Bailey:

In submitting my report on the music in the schools of the Town of Berkley I can cover only the time from September 14th, to January 1st, a period of eight lessons. Much thought has been spent on the adjustment of the classes and definite plans laid out for the work in music.

The extra class at the town hall has relieved the congestion of two years ago but it has brought about an arrangement of grades that do not combine well in music. Grades two and three are too far apart in their musical knowledge to work advantageously together. It has been necessary to separate these classes in order to get the best results.

The chorus work has fallen behind this past year. This would naturally follow the elimination of supervision. The supervisor's wider experience and broader training in her special subject in contrast to the teacher's division of her time on many subjects make her work in the class room of more value. The supervisor is an audience and sits in judgment on the weekly lesson. She makes helpful suggestions and plans definite graded work. Her teaching lessons are type lessons. Her presentation of each new music problem is a model lesson for the teacher to observe and to follow. The outline of work is pedagogical and carefully adapted to the development of the child. A visit every two weeks means slow progress. This is especially so at the Myricks

School where one hour every two weeks is divided among four classes.

An effort is being made to stimulate quicker sight reading. Children are inclined to see and read note by note rather than groups of notes. The same method is advocated for music, reading as for story reading.

The boys and girls in both schools of the town would get a great deal out of a course of music appreciation. I believe it would aid the classroom work. The pupils would find there was so much more in the field of music than they ever dreamed. They would become more selective in the choice of their radio programs, more critical of second rate performances. One period a month for this work would be tremendously worth while in its stimulating effect. During these lessons the child learns to listen, to observe, to discover. Through the singing games and folk dances he acquires a free rhythmic muscular responsiveness. By participating in the toy orchestra the backward or shy pupil finds a means of self expression and enjoys himself making music. What the music of our country is to be lies in the hands of the boys and girls in our schools. Dr. Walter Damrosch realizes this in his broadcasts over these United States and Canada every Friday morning during the school year. The Saturday afternoon broadcasts of the Metropolitan Opera Company and the thundering applause and shouts of its audience at the drop of the golden curtain speak the emotional appeal of great music. The Cadillac programs on Sunday evenings, the Firestone concerts on Monday evenings featuring such world-wide artists as Rosa Ponselle, Lily Pons, Lawrence Tibbett, Richard Crooks are a testimonial of good tests in music and high class advertising.

Our boys and girls have heard of the "Legend of Sleepy Hollow" and its hero Ichabod Crane. Do they know that this same legend in another country is the Eilking set to music by Schubert? That it inspired Schumann to write "The Wild Horseman?" They would enjoy listening to them and thereby enrich their musical experience and broaden their musical horizon.

Respectfully submitted,

LOIS J. SNOW,

Supervisor of Music.

REPORT OF ATTENDANCE OFFICER

Mr. Norman D. Bailey,
Superintendent of Schools,
North Dighton, Massachusetts.

Dear Sir:

It gives me pleasure to report in my Annual Report as Attendance Officer, little trouble from non-attendance. Some problems have arisen due to lack of clothing for children to attend school.

Respectfully submitted,

HARRY J. GAFFNEY,

Attendance Officer.

ANNUAL REPORT OF THE SCHOOL NURSE AND SCHOOL PHYSICIAN.

Mr. Norman D. Bailey,
Superintendent of Schools,
Berkley, Mass.

Dear Sir:

We hereby submit the annual report of the School Physician and the School Nurse for the Town of Berkley.

During the month of November 233 pupils were given a physical examination by Dr. Briggs. The following defects were found:

Enlarged tonsils and adenoids,	32
Eye defects (test given by teachers)	19
Enlarged glands,	11
Curvature of spine,	5

It is our desire with the cooperation of the parents to have many of these defects corrected.

The Schick test clinic, sponsored by the Parent-Teachers Association, will be held in the Berkley School in January. The clinic sponsored by the Myricks Association was held in December. During the school year of 1932-1933 a Dental clinic was also sponsored by these associations.

The Pre-School clinic will be held in May, at which time all children entering school in September are given a routine physical examination by the school physician—an opportunity open to all.

We wish to thank the teachers, Parent-Teachers Associations and all parents for their cooperation in all health projects pertaining to the pupils.

Respectfully submitted,

CHARLES A. BRIGGS, M. D.,

RUTH A. DEANE, R. N.
